SHORT INTRODUCTION

DEENI MAKTAB (Primary Schools) is a group of Basic Islamic Education Center targeting school going children. It is a step forward to create moral and human values in all children who are already getting modern education but deprived of moral and Islamic education. It is unfortunate for Muslims to be educationally, economically, socially and politically backward. To overcome these problems in the community, it is a prime responsibility of every Muslim to create an educated environment in and around their localities.

Islam is a religion of humanity and peace. People must follow the teaching of Allah and life of Hzt. Muhammad (peace be upon Him) to know the human values but even **majority of Muslims don't have the knowledge of Qur'an and Sunnah.** To make locality glorious we work on education and so open centre's here and there.

Starting up Deeni Maktab:

To see our goal come true, we are making untiring efforts to establish Centers of Deeni Maktab in every village to educate, promote and motivate the students about human values and rights.

● Establishing Coaching centre:

In fact Modern education is very important and essential for our community. Our goal is to impart modern education in Islamic atmosphere. With the help and support of “Bihar Anjuman” we are already running Rahbar Coaching Centre for 8th 9th and 10th but we are also trying to include class 11th and 12th. We are providing extra opportunities to the students who aims to touch a vertex of success. We specially target the area of weaker section in the locality where hopeless and helpless people live without any specific goal of life.

In our own building we have decided to reserve one floor for modern education/ coaching centre.

Organizing Quiz Competition

We organize Islamic and scientific quiz competition solely for those who are not attached to DEENI MAKTAB and consequently not getting adequate education. This way we try to convert the dark present into bright future.

We provide a set of questions & answers or small booklets or study materials (from The Quran, Hadith, Fiqh, Deeniyat, Islamic History, Math, sciences and GKs) to the candidates and from within the provided material we conduct competition from time to time.

We have organized **our first Quiz Competition in 2004 at Milli Model School, Jamat-e-Islami Campus, Abul-Fazl Enclave, Jamia Nagar**, New Delhi with 300 students from 20 diverse schools.

A brief journey and History of Deeni Maktab

On March 2008, when I shifted my residence from *Zakir Nagar to Zaidpur*,

I found majority of uneducated, uncivilized and uncultured Muslims all around my neighborhood.

It made me restless and uncomfortable so I started making efforts *to educate them and change their life* according to Islamic Sunnah model.

A JOURNEY OF 11 YEARS TO MAKTAB

I **invited** two young lovely students (brother & sister) to start my mission. *I started motivating the students to fight out the darkness arising out of the* un-educated and the most vulnerable people of the locality.

I **used** to teach them Qur'an, Urdu and life of Rasoolullah (Peace Be upon Him) *and tried to change their mind to adopt the Sunnah* in their day to day life. Sub'han Allah, I found changes in their life and all thanks are to Almighty Allah alone for His help, mercy and guidance in my mission.

Today at Zaidpur alone **we have around 1000 students in ten centers**, with twenty five (25) batches separately for small students, girls and boys and most of them are being taken care of and taught by senior students.

STARTING PERIOD OF MAKTAB

Deeni Maktab 2009

Space for Maktab:

To reduce the expense of Maktab ***we used open land, parking, and roof top of some houses*** or any hall available for a few hours without any charges or at the minimum low possible rent or charges to open Maktab but we have had to face too many problems because of the temporary arrangement.

Teachers:

We need devoted teachers for Maktab so that they may teach students as per our mission and objectives to make our dream come true. *We have trained our own students and Masha Allah they are doing their job sincerely honestly* far ahead of our expectations.

Our Centers:

We want to reach all around the country, so we have started inviting the people to come forward. Masha Allah, **A lot of people have acknowledged our services appreciated us and accepted our system to** support us with whatever recourses they had with them. Alhamdulillah, overall at present we have ***three centers in Udisha, one in Kolkata, 3-4 in Bihar and 10 in Delhi.***

Modern Education:

We have ***attached modern education*** along with DEENI MAKTAB and there are 3 batches of 8th 9th and 10th too. Alhamdulillah at present we have approx 70 students in our center.

FUTURE PLANNING

We plan to start 25 Deeni Maktab Centres in Zaidpur, Khadar, JJ colony either by [purchasing land or managing on rent](#). We would like to purchase ground floor in any building where we have to pay less amount and thus we may [expend less in construction and more on education](#).

We will expand our centre to places where we have not reached to date [like Okhla, Abul-fazl, shaheen bagh, Okhla vihar](#) etc.

We will have a few hostel based coaching centre for class 8th 9th 10th 11th and 12th where selected student can get guidance to prepare for medical engineering judiciary and all such fields.

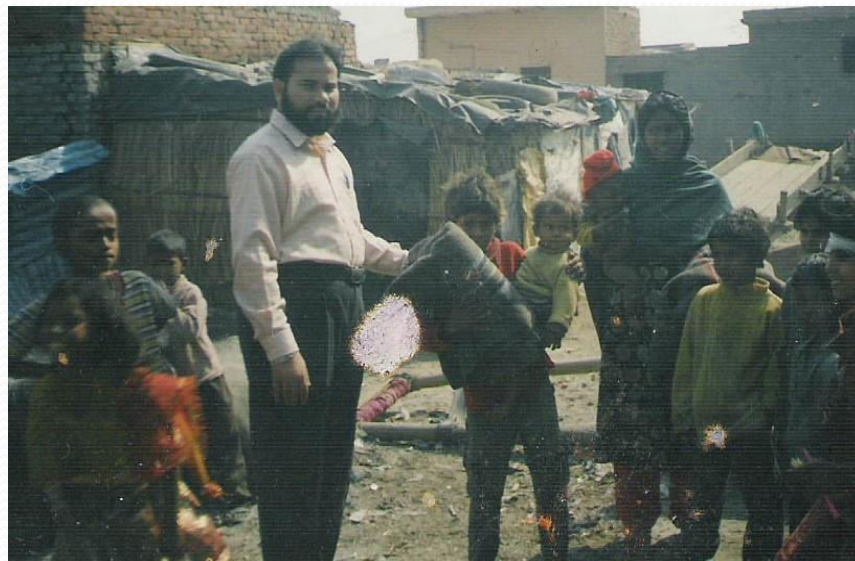

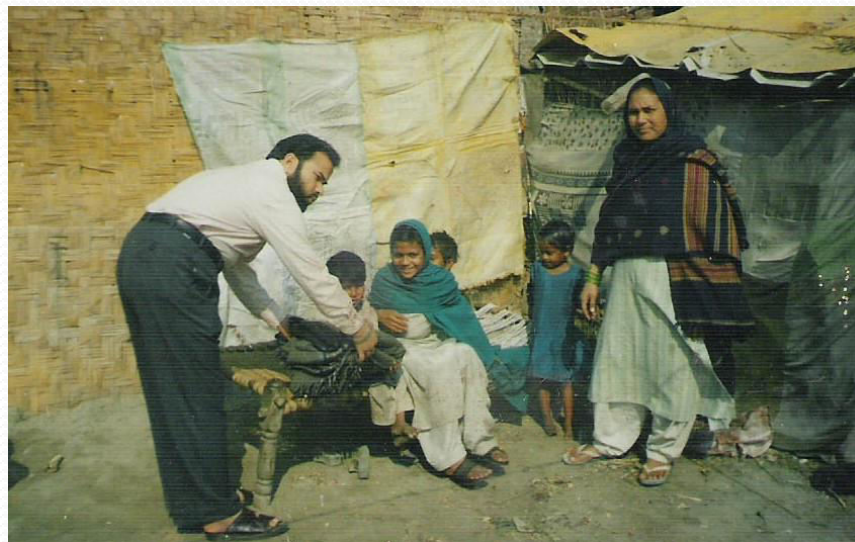

We will move in-sha Allah further to [bihar, Uttar Pradesh, Jharkhand, west Bengal and udisha](#) to expand our mission.
